Educate

Cradled in Grace Adoption Consultants guides our clients through every step of the adoption process, educating them on what to expect, from home study to finalization. Our well rounded education program includes partnerships that offer invaluable insight and understanding from the perspective of adult adoptees, birth mothers and adoptive parents. Including all voices sides of the triad is vital when creating a full view of the adoption journey for all parties involved.

Topics include, but are not limited to:

- What to expect in a domestic adoption home study, how to prepare for your home study and the importance of hiring a reputable and thorough agency.
- What makes a good adoption profile book and why is it so important.
- The matching process, identifying high risk adoption situations.
- Typical adoption agency fees, understanding at risk-money and setting a realistic budget for your adoption.
- Birth parents' rights, adoption risks and openness in adoption.
- Understanding the Interstate Compact for the Placement of Children (ICPC), post placement and finalization.
- Case specific education about medical/social issues specific to each potential match situation.
- Clients will have special access to a list of educational resources related to adoption.
